Policy AD1

It is submitted that the settlement boundary as presently defined is inappropriate in drawing a distinction between the confines of the settlement and the open countryside which have distinct land use and landscape characteristics. Attached is a plan which identifies a requested amendment to the settlement boundary so as to include domestic gardens which as a matter of fact relate to domestic properties and reasonably should be included within the settlements boundary. The additional areas of land could not be reasonably contended as constituting open countryside or justifying the underlying purpose of the policy in favour of landscape protection.
